PROFESSIONAL SUMMARY

Linux System Engineer with 5+ years of experience across Linux and Windows administration, infrastructure operations, virtualization, production support, monitoring, backup and recovery, and automated deployment. Hands-on experience with Proxmox VE, VMware, KVM, AWS, Docker, Ansible, Terraform, and monitoring platforms including Nagios, Icinga2, and Zabbix. Experienced in server provisioning, system migrations, DNS/DHCP and VPN services, firewall policies, security hardening, SSL certificate management, and troubleshooting business-critical systems.

TECHNICAL SKILLS

Operating Systems: Ubuntu, CentOS, RHEL, Debian, Linux Mint, Windows Server

Virtualization: Proxmox VE, VMware, KVM, VirtualBox

Cloud & Automation: AWS, Docker, Ansible, Terraform, Jenkins, Git, GitHub, GitLab

Monitoring & Logging: Nagios, Icinga2, Zabbix, ELK Stack

Networking & Security: DNS, DHCP, VPN, VLAN, SSH, LDAP, firewall management, server hardening, security patching

Deployment & Migration: PXE Boot, Kickstart, automated OS deployment, server provisioning, system migration

Web & Application Services: Apache, Nginx, OwnCloud administration, SSL certificate management, LAMP, LEMP

Storage & Backup: LVM, RAID, NFS, Samba, Rsync, Clonezilla, disaster recovery

Scripting & Database: Bash, shell scripting, Python (basic), MySQL

PROFESSIONAL EXPERIENCE

Senior IT Engineer | Prudent Technologies, Kochi | ***Jan 2026 – Present***

- Manage and maintain Linux and Windows server infrastructure across production environments.
- Administer virtualization platforms including Proxmox VE, VMware, and KVM.
- Support infrastructure monitoring, backup operations, security hardening, and deployment activities.
- Perform server provisioning, system migrations, SSL certificate management, and automation using Bash scripting and Ansible.

System Administrator | NDimensionZ Solutions Pvt Ltd, Kochi | ***Sep 2023 – Jan 2026***

- Managed Linux server environments, Proxmox virtualization infrastructure, and Docker-based workloads.
- Implemented and maintained monitoring solutions using Nagios, Icinga2, and Zabbix.
- Configured DNS, DHCP, LDAP, VPN services, firewall policies, and server security controls.
- Administered OwnCloud environments, Apache/Nginx web servers, PXE Boot infrastructure, and Kickstart-based automated OS deployment.

IT Executive | VVDN Technologies, Kochi | ***Aug 2021 – Aug 2023***

- Provided infrastructure and technical support for servers, desktops, laptops, and network devices.
- Performed system monitoring, backup management, troubleshooting, and user administration.
- Assisted with Linux system administration, shell scripting, and technical documentation.
- Contributed to system availability, security, and operational stability.

KEY PROJECTS

Infrastructure Automation: Automated routine Linux administration tasks using Bash scripting and Ansible playbooks to reduce manual effort and improve operational efficiency.

Proxmox Virtualization Platform: Deployed and maintained virtualized environments, including VM provisioning, backup management, and recovery procedures.

PXE Boot & Automated OS Deployment: Implemented PXE Boot and Kickstart-based infrastructure for automated Linux installation and provisioning.

Backup & Disaster Recovery: Implemented backup workflows using Rsync and Clonezilla to improve data protection and recovery readiness.

Linux Security Hardening: Improved server security through SSH hardening, firewall configuration, access control, SSL implementation, and regular security patching.

CERTIFICATIONS

- Cloud Computing & DevOps – Intellipaat
- CI/CD DevOps Project Certification
- RHCE – Pursuing

EDUCATION

Diploma in Computer Engineering — Government Polytechnic College, Chelad
